

Rutgers Discovery Informatics Institute  
PRESENTS

# INTRODUCTION TO DATA MANAGEMENT FOR RESEARCHERS

May 15, 2018

12:00 p.m.—2:00 p.m.

CoRE Building, Room 701, Busch Campus  
(96 Frelinghuysen Road, Piscataway)

\*Note: Use 100 Brett Road for Navigation

You are invited to join RDI<sup>2</sup> for a discussion of best practices for managing research data. The data created as part of research is important, and should be well-organized, well-preserved, accessible, understandable, and usable by the scholarly community. The discussion will include developments in data sharing, data collaboration, reproducible research, and more.

As part of the NSF funded Virtual Data Collaboratory project, RDI<sup>2</sup> is developing educational modules to help researchers solve their data issues and increase the impact of their research. Insights and feedback resulting from the discussion will be incorporated into the educational modules.

Lunch will be provided. No registration necessary.

For additional information, please contact [forough.ghahramani@rutgers.edu](mailto:forough.ghahramani@rutgers.edu).
