Rutgers Discovery Informatics Institute (RDi²) welcomes students from the National Center for Girls Leadership Stuart at Stuart Country Day School to dive into the world of big data that is revolutionizing research in every field.

In addition to tours of state-of-the-art facilities at RDi², students will learn about Fundamentals of Data Science and top research initiatives at the institute such as the Virtual Data Collaboratory and the Ocean Observatory Initiative. Students will also have the opportunity to experiment with live oceanographic data to develop a web-based dashboard that will continuously display data streaming real-time from under water sensors on the Pacific Ocean seafloor and visualize the results of simple data transformations.

Join us for an exciting day filled with science, discovery, and fun!

WHEN: May 17, 2018 @ 9:30am
WHERE: CoRE Building, Room 701, Busch Campus
